	MS Word

Work

Philadelphia Chinatown Development Corp.
Philadelphia, PA
Sept 2018 – present

Community Development Planner
− Perform fiscal and market analysis to support the new 150-unit mixed use Eastern Tower Community Center and the 20,000-attendee annual Night Market (夜市)
− Serve the Chinatown community through workshops, events, and direct engagement
− Assess parking needs through policy review and a survey of 100+ Chinatown stakeholders

Professor Ken Steif
Univ. of Pennsylvania
Philadelphia, PA
Sept 2018 – present

Forecasting and Statistical Analyst
− Write machine learning and regression models to predict planning issues, including traffic congestion, flood and wildfire risk, housing code violations, and bike share rebalancing
− Optimize predictions and wrangle large public data sets (1M+ rows) in R, JavaScript, and ArcGIS
− Build video presentations, visualizations, and interactive webmaps to convey findings

Office of Transportation, Infrastructure, and Sustainability
Philadelphia, PA
Sept 2018 – Dec 2018

Vision Zero Consultant
− Advise the City of Philadelphia on Vision Zero policy aiming to eliminate traffic deaths by 2030
− Compile, analyze, and visualize crash data on the High Injury Network using R and ArcGIS
− Prepare strategies to build consensus for Vision Zero among community members and the city
− Present 40+ new planning and safety practices for Philadelphia city agencies

San Francisco Municipal Transportation Agency
San Francisco, CA
May 2018 – Aug 2018

Transportation Planner
− Independently executed a capital assessment study to direct investment in EV charging, integrating transportation policy concerning complete streets, climate action, and safety
− Supported planning and engineering projects, including signal timing for Bus Rapid Transit, dockless bike share and electric scooter permits, and interactive webmaps
− Mapped and analyzed transportation networks for ConnectSF, a 50-year transportation plan

African Cultural Alliance of North America
Philadelphia, PA
Jan 2018 – May 2018

Planning Consultant
− Created a comprehensive plan for Southwest Philadelphia, population 60,000
− Analyzed and presented data on demographics, economy, environment, and community
− Designed graphs, charts, and maps using Adobe Creative software to illustrate proposals

Projects

SexGen Policy Lab
Univ. of Pennsylvania
Philadelphia, PA
Sept 2018 – present

Gender and Policy Researcher
− Build research on critical theory, gender, and sexuality in planning, economic, and housing policy
− Interview transgender subjects in mixed-methods study measuring travel stress
− Track and model stress levels on during travel using GPS, eye tracking, and biometrics

Professor Erick Guerra
Univ. of Pennsylvania
Philadelphia, PA
Sept 2017 – Mar 2018

Transportation Researcher
− Researched and analyzed crashes and commute patterns in 100 US and Mexico metro areas
− Translated technical US Census, and Mexico Intercensal data into non-technical narrative
− Performed spatial, raster, and statistical analysis using R, Python, and ArcGIS

Bike & Build
Southern US
May 2018 – Aug 2018

Rider, Fundraiser, and Volunteer
− Cycled 4,000 miles over eleven weeks from Jacksonville, FL to Monterey, CA
− Helped raise $500,000 for affordable housing, distributed to local non-profits
− Constructed affordable housing in communities of need in nine US cities

Bike New York
New York, NY
Sept 2015 – May 2017

Volunteer Marshal and Instructor
− Marshalled over 30,000 riders in the Five Boro Bike Tour and other local events
− Gave instruction on bicycle use, repair, and maintenance as part of BNY's free programming
